

## **Doctors, where are YOUR patients getting their health information?**

Did you know that 150 million Americans search for Health Information Online every year? Face it, with the Internet playing a huge role in patient choices, yours are inundated with "health" information and tips from Online Health Portals, Search Engines, Blogs, Message Boards, Infomercials...and there's always Aunt Elma's trusty advice.

***Do you want to give your patients top quality, award-winning orthopedic information at any time of the day or night that is developed by doctors?***

Provide your patients with top-quality, accurate and easy-to-understand orthopedic patient education complete with detailed illustrations and videos with 3D animations from iHealthSpot's National Award-Winning Patient Education Library, 24/7, from YOUR practice website!

**iHealthSpot's National Award-Winning Orthopedic Patient Education Library includes features that you won't find anywhere else!**

- ⊕ Comprehensive orthopedic-written content, presented in terms that your patients can understand.
- ⊕ High-quality videos featuring 3D orthopedic animations depicting conditions and nonsurgical & surgical treatments for a variety of orthopedic conditions.
- ⊕ Detailed orthopedic illustrations with labels of anatomical structures.
- ⊕ News breaking orthopedic articles are automatically fed to your website!
- ⊕ Four-time national award winner for excellence in health information online.
- ⊕ Completely accurate information with an editorial team headed by a renowned orthopedic surgeon and consisting of a host of medical and rehabilitation doctors.

**Add iHealthSpot's Patient Education Library to your existing practice website for a one-time set-up fee of only \$350, plus fees starting at just \$59/month per specialty! Interested in our complete Patient Education Library? Call for details.**

**Need a Website? Contact iHealthSpot today about our affordable website packages with features you won't find anywhere else!**
